The release of the Ward liner Morro Castle, an American ship, after peremptory demands by the United States, terminated a delicate situation. Orders were in preparation to the commanders of the American warships lying off Vera Cruz, to insist on her release.

Thus it takes sway from instead of Thus it takes away from instead of adding to the complexion, differing in adding so the complexion, differing in this respect from cosmetics. the Jefferson and Planters hotels have
been reserved for these guests and for
outside representatives of the brewery.

It is possible that, in a great part of the republic, the present disturbances may prevent the people from having an opportunity to vote, and it is not unlikely that, when the returns are received in November, it may be found that less than the legal number of precincts have expressed their wish at the polls.

By Associated Press. CHICAGO, Oct. 1 Gary, chairman CHICAGO, Oct. 24.-Judge Elbert H. at the semi-annual meeting of the American Iron and Steel Institute, declared that the stability of business has been interfered with and the confidence

> "There are exceptional cases," declared Judge Gary, "in which mismanagement has caused distrust or dissatisfaction on the part of foreign and domestic capitalists, but this is not the principal reason for hesitancy at present on the part of these capitalists in They wonder why it is that, with our great and growing wealth and resources and our superior advantages, we are not more continuously prosperous; why we are not more stable in prices and values and on general conditions; why there is ever any disposition on the part of anynatural progress in the development of

> Charges It to Agitation. "I venture the assertion that it is largely because of such unnecessary gitation and ill-considered criticism hose who have not the nation's best interests at heart. There is too much demagogue, too much mud slinging,

"It is not uncommon in public discus ion to treat success as an offense; to consider the possession of wealth, how ever honestly acquired, as wrong. Legis-lation calculated to create classes is urged persistently; also laws to impos unnecessary and unreasonable burdens; to forcibly take from one something which he has and is entitled to have, and turn it over to another; to prevent or to lessen the success of legitimate enterprise and endeavor.

Capital Becoming Frightened.
"Capital, always timid, has been seriously affected by this unreasonable and ncalled for agitation and attack. Indeed, it is becoming frightened.

"The stability of business, which is esential to its proper and reasonable growth and success, has been interfered with. Our great and growing population can use our products; it needs food and clothes and material to build, and it is willing and anxious to buy them in need of railroads and ships, with the best equipment to carry these it is willing to pay fair rates for the service. And those who are able are quite ready to furnish the necessary capital, provided they can be certain of

protection against loss or risk. "It is high time for all of us to wake up to a realization of the fact that we are in competition with other countries, who by every means in their power are striving for supremacy; that it is not difficult for us, by good management to reach the greatest measure of success n competition with other nations of the world and yet that it is just as easy to fall, if our vision is narrow or if we act without due regard to the results.

Presper or Fall Together.
"We would not discourage honest, sin cere movements which are intended to maintain a fair equilibrium as to the rights of all classes of people; or those itended to prevent oppression or wrong or such as may furnish full and equal opportunity to everyone to honestly and properly advance his own welfare and pecumary interests.

"But at the same time it should not be forgotten that the people of a nation prosper or fail together; that the unnecessary destruction of one or a few adversely affects the whole body; that while the application of the principles of good morals is of the highest impor tance, nevertheless the man whom it 's sought to influence by these considera-tions lends an unwilling ear, unless, at the same time, his material wants are

One Tells How Admiral Talked Incoherently and Stared While in Ship's Command.

PLYMOUTH, Mass., Oct. 24.—Testimony to support the defense's contention that Rear Admiral Joseph G. Eaton was addicted to drugs was given today at the trial of the widow, Mrs. Jennie M. Eaton, who is charged with poison-

Peter S. McNally of Boston told the ourt that in 1897 and 1898, when the officer was a captain in command of the training ship Enterprise, he frequently appeared intoxicated, talked incoherently to himself and stared, yet no odor of

liquor could be noticed on his breath. Judge George W. Kelley of Rockland, friend and legal adviser of the Eaton family, testified concerning the affection of Admiral Eaton and the wife. The Admiral once said to Judge Kelley: "I have a remarkable wife who has been of great help to me, but she has obsession, her daughter June."

Mrs. Eaton Fond of Admiral. Mrs. Eaton had often expressed fondness for the Admiral, although she did not always speak of him in affectionate terms. She told Judge Kelly that her husband was becoming insane through the use of drugs, but when the witness proposed having him arrested or committed to a hospital for insane, she declared that she would not allow anyone "to harm a hair of the Admiral's head." Judge Kelly had no personal knowledge that Admiral Eaton used drugs. Dr. Jacob W. Brown, formerly a Boston physician, but now serving a jai! sentence for illegal practices, testified that in 1910 he prescribed a preparation containing arsenic at the request of Admiral Eaton. The prescription called for 4600 pills, each containing 1-100th of a grain of arsenic.

Often Appeared Intoxicated. Later the Admiral brought some of the pills to the witness, saying that a child had died from eating one of them. Another time the Admiral showed him some capsules which, he said, contained rsenic and which he used to kill dogs. He said that Admiral Eaton was often intoxicated when he called on him.

Pickett and Ollie S. Delvee were child hood sweethearts in this neighborhood. Picket enlisted for service in the Civil War, and became a Sergeant in the Seventeenth Regiment. PANAMA, Oct. 24.—Another earthquake shock was felt on the isthmus yesterday and although no damage was done either here or in the canal zone people rushed from their homes and sought open places in terror. The province of Los Santos felt the neavier shocks but no report of damage has

It was twelve days since the previous quake. The Marshall & Wendell pianos and player-pianos for this co-operative sale were personally selected at the factory by Mr. P. E. Conroy, our President, and upon arrival are being tested and inspected by Mr. Charles Galloway, for years Conductor Apollo and Morning Choral Clubs.

The success of this plan lies in the value of the piano

MARSHALL & WENDELL PIANOS have been made since 1853—there are 65,500 of these famous instruments in American homes—hundreds of them are in use in the homes of St. Louis families. We have scores of testimonials of St. Louis owners of Marshall & Wendell pianos and player-pianos, every one of these people tell you over their own signatures that the tone, touch, durability and lasting qualities of the Marshall & Wendell piano is unsurpassed. It is the famous Marshall & Wendell pianos and players that we are offering on the co-operative plan.

That this big Co-operative Sale is a success goes without saying. It's an overwhelming success. Far beyond our most sanguine

But, when all is said and done—when the whole proposition has been sifted down as to what this success can be attributed, the one thing that stands out bolder than all the others is the great value of the piano for the money.

Read this to take advantage of this unusual sale all you have to do is send or bring in five dollars is credited to your account on the co-operative books.

The co-operative plan then allows one hundred and ninety-five weeks' time in which to pay the remainder—at the rate of one dollar and twenty-five cents a week if you select a plane, or two dollars a week if you select a plane, or two dollars a week if you select a plane, or two dollars a week if you select a plane, or two dollars a week if you select a plane, or two dollars a week if you select a plane, or two dollars a week if you select a plane, or two dollars a week if you select a plane, or two dollars a week if you select a plane, or two dollars a week if you select a plane, or two dollars a week if you select your selection at once—tomorrow—next day—next week, or any other time convenient to you. It will be delivered immediately—next week or next month. The time you select your instrument and the day of delivery is wholly optional with you.

If not convenient for you to personally select your instrument, we will make the selection for you under your instructions, with the understanding that if at the end of thirty days' trial you are dissatisfied, we will refund your money and send and get the instrument.

dollars and 75 cents? When, if ever, do you again expect to buy a piano of such known high-grade upon such easy terms as 5 dollars as an initial payment and the remainder at the rate of 1 dollar and 25 cents a week and no interest charged?

Do you ever again exp to have an opportunity to buy a piano which is so strongly gua. anteed?

Do you ever expect, in buying a piano, to get more privileges, such as getting your money back or exchanging your piano after you have tried it for a whole year? And do you expect to get a more liberal agreement-taking everything into account-than this co-operative agreement which we have been describing from day to day?

We can answer these questions for you with a decided NC. NEVER. A more fair, square, or liberal proposition will never be offered on which to put a piano in your home. You are missing the opportunity of your life if you don't get one of these pianos during this co-operative sale.

Compare these planos with others

In other stores—you may find pianos at "a dollar down, and dollar a week." But look them over. They are "dollar down and dollar a week" pianos.

Now come to see these pianos: Look-at them. There is no uncertainty about the price on these pianos. It is marked in plain figures on each and every piano.

There is no hesitancy about the terms. They also are marked in plain figures.

The proposition has been carefully thought out and worked out. The price has been made as low as the most thoroughly organized and most economical selling methods permit.

The terms have been made as easy and the time in which to pay has been made as long as the small profit will justify.

You pay only five dollars as an initial payment, which is immediately placed to your credit and ensures immediate delivery of your instrument. This leaves a balance of two hundred and forty-three dollars and seventyfive cents to be paid, which you are permitted to pay in one hundred and ninety-five weeks at one dollar and twenty-five cents a week.

This is progressive merchandising. It is a combined effort on the part of the manufacturer and the seller to make two buyers where there used to be but one through the strongest incentive known—that of a greatly lessened price and greatly lengthened time in which to pay.

Lost and Found

THAT LOST ARTICLE MAY NOT BE FOUND TODAY Or tomorrow or next week. In fact, a month or more may elapse before it turns up. A little persistency may be necessary. Often the article remains unfound; often fear of prosecution or hope of more satisfactory reward may delay the restoration. Then the belated awakening of the finder's conscience explains many delays. But persistency and Post-Dispatch wants will usually recover a lost article. If an honest person finds it. The service of the Post-Dispatch Lost and Found Bureau is also enlisted in behalf of advertisers. (93)

Nothing has occurred the past week to lower the condition of the winter wheat crop, and the highly favorable prospects are fully maintained. Seeding is practically completed, and the increased acreage in nearly all sections is confirmed. In Missouri and Kansas the increase is larger than was previously reported. The recent severe frost has checked the too Juxuriant growth in some sections, and will prove a benefit rather than an injury to the plant. Taking the wheat belt as a whole, never before has the crop started under more favorable conditions than have prevalled the present season.

Local Money Market.

There is no reason to doubt the statements of local bankers to the effect that the worst part of the fall financial demands have been experienced in the past few weeks, and eave been promptly and expeditiously met by the local institutions. There have been no wide fluctuations so far as the St. Louis market is concerned, and, in fact, judged comparatively, the situation here has been very satisfactory at all times.

Rates have ranged from 5½ to 6 per cent during the past week, and on several days the volume of business has been so light as to suggest that there was no particularly keen borrowing demand. The status here seems to be very encouraging just now.

If It Is Thinning Out or Full of Dandruff, Use Parisian

Sage at Once. Most men, and husbands in particular, are careless regarding the care of the hair—not until it comes out by the combful do they really take notice. Then it may be too late.

If your husband's hair is getting thin; if he has dandruff or the scalp itches and burns—take immediate action; do not let him become a baldhead.

baldhead.

baldhead.

Get from any druggist or tollet counter a 50 cent bottle of Parisian Sage. Rub it well into the scalp every night. The first application will remove dandruff. When the hair stops falling and the new growth appears use every other night until the hair is thick and abundant.

Parisian Sage is a delightful and invigorating bair tonic for men, women and children. It is a scientific preparation based on a therough knowledge of what is needed by the hair and scalp to keep them perfectly healthy and remove dandruff, stop scalp itch and falling hair. Surely try Parisian Sage. Look for the trade-mark on every package, the "Girl with Auburn Hair." Wolff-Wilson Drug Co. recommends it—ADV.

Oldsmobile Individuality

Ideas in design that find their first expression in the Oldsmobile, later become "standard" in other cars. But Oldsmobile individuality is always apparent in the complete, thorough way in which every detail is developed and refined. The Oldsmobile motor, for instance, designed exclusively for this monarch of the road, is the ripe product of the designing genius of a staff of engineers who consider it the highest point yet attained in American motor construction. A ST. LOUISAN IN PARIS.

OL HENRY CLAY GRENNER, during his tour of Europe last summer, had some novel hotel experiences. Before starting to Europe Col. Grenner brushed up on his German and Italian, but neglected his French. Upon arriving in Paris, Col. Grenner went to a fashionable hotel, and in due course to the dining room for dinner.
"They handed me a menu card about three feet long." said

Col. Grenner. "Everything was in French. The waiter could speak no English, and I had to order by making signs. I decided to take a chance, and pointed to something near the top of the bill of fare. The waiter brought me soup. So far, so good. I moved down the card a few inches, and pointed to something else. The waiter brought more soup. That seemed to me to be a little too much soup, but I took it and said nothing. To make sure I would get something else, I moved still lower on the bill of fare, but got soup a third time.

. "By the time I consumed that I was so full of soup that I could hear it splash every time I took a spoonful. In near-despair of getting anything else, I dropped almost to the bettom line of the bill, and motioned to the waiter to bring me whatever it called for."

"And what do you suppose it was?" asked the colonel.
